argjolan@gmail.com

Cloud / DevOps Engineer
Amsterdam, Netherlands

PROFILE

Currently freelancing on various architecture / cloud oriented projects.
I mostly focus on provisioning infrastructure through cutting edge tools to give autonomy back to software engineers.
My main goal is to remove the pain points your software engineers get during all steps of product development.

EDUCATION

Master of Information Technology
Epitech, Paris Graduate School of Digital Innovation
2012 – 2018

SKILLS

Cloud Providers
AWS, GCP
